## What's at Risk for CA's Statewide Safety Net

In 2025, Congressional Republicans are expected to focus their legislative efforts on extending the 2017 Trump tax cuts, giving more and bigger handouts to billionaires and corporations. To pay for these tax cuts, Congress has discussed major cuts or rollbacks to federal programs, including Medicare, Medicaid (Medi-Cal in California) and Affordable Care Act marketplaces like Covered California. The majority of Californians rely on these programs for their health care coverage.

The chart below details Medi-Cal and Covered California enrollees, and Medicare eligibles by California Congressional district, with the most recent available estimates, identifying the number of people in each district that would be impacted by any changes to existing programs.
